4th Quarter Fiscal Year 2013 Fee Determination**

CH2M♦WG Idaho, LLC (CWI's) fee request dated October 7, 2013 covers the period July 01, 2013, through September 30, 2013. The contract is a Cost plus Incentive Fee (CPIF) contract using cost and schedule as a performance measure vs. a Performance Evaluation Management Plan (PEMP). The proposed provisional amount of fee requested is \$2,438,172.

The contract extension has three Contract Line Items (CLINs). CLIN A has no fee associated with it and CLIN B is based on milestone completion. Therefore, the contractor has requested provisional fee for only CLIN C which is the balance of the ICP. Per contract modification 256, the total contract target cost and target fee are based on a period of performance from October 1, 2012, through September 30, 2015. Through September 2013, the target cost is \$491,603,023 and target fee is \$36,181,982, with a maximum fee of \$73,740,453. Incentive fee is based on a 70/30 cost share ratio. There is also a schedule fee penalty in the contract.

The contract has the following provisional fee payment schedule:

B.17(a) Scheduled Provisional Fee Payments will be made quarterly and will be calculated as follows:

$$\text{Provisional Fee Payment} = \frac{\text{Target Fee} \times 0.80}{12}$$

However, quarterly fee payments may be adjusted based on the evaluation criteria identified in Section B.17(b). Therefore, DOE agrees with the 4th quarter fee request.
