

U.S. DEPARTMENT OF
ENERGY

Steven Zobel, CHP
DOELAP Administrator
Office Of Corporate Safety Programs

DOELAP Assessor Training
September 24, 2012

What Happened?

Since 2009,

- Formalized the relationship between HSS and NE/RESL through an MOU.
- Established timelines and deadlines for accreditation.
- Revised the accreditation schedule for external dosimetry and began combining direct and indirect radiobioassay accreditations to aid RESL in work load balancing.
- Revised DOE-STD-1095.
- Transitioned external dosimetry accreditation from a 2-year to a 3-year cycle.
- Transferred the Phantom Library back to RESL.

Current Activities

- DOE-STD-1111 is in the final stage of revision – anticipate an effective date in February 2013.
- DOE-STD-1112 will undergo revision beginning this October.
- DOE-STD-1095-2011 to be updated.
- Coordinate with RESL to maintain an adequate population of DOELAP assessors.

Future Activities

- Revision of the onsite assessment process.
- Development of a DOELAP guidance handbook.
- Possible transition of DOELAP out of technical standards and into 10 CFR Part 835.

Conclusion
